## BabyFoam

### SECTION 1 :: PRODUCT IDENTIFICATION

**Product Name** BabyFoam  
**NCI Name** Sodium Cocoyl Isethionate  
**CAS** 61789-32-0

CHEMTREC (R) Emergency Call toll-free telephone numbers USA : 800 424 9300

### SECTION 2 :: HAZARDS IDENTIFICATION

**Physical state:** Powder / Granule  
**Odor:** Slight  
**OSHA/HCS status:** While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.  
**Emergency overview:** No specific hazard.

**Potential acute health effects**

Eyes	Slightly irritating to the eyes.
Skin	Slightly irritating to the skin.
Inhalation	No known significant effects or critical hazards.
Ingestion	practically non-toxic if swallowed.
Medical conditions	Repeated skin exposure can produce local skin destruction or dermatitis. Repeated
Aggravated by over exposure	Exposure of the eyes to a low level of dust can produce eye irritation.

### SECTION 3 :: FIRST AID MEASURES

**Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Skin Contact:** wash skin thoroughly with soap and water or use recognized skin cleanser. Get medical attention if irritation occurs. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Inhalation:** move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth to mouth resuscitation. Get medical attention if symptoms occur. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Ingestion:** wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the

## **BabyFoam**

lungs. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Protection of first aid responders: no action shall be taken involving any personal risk or without suitable training.

### **SECTION 4 :: FIRE FIGHTING MEASURES**

Flammability of the product: May be combustible at high temperature.  
Products of combustion: These products are carbon oxides (CO, CO<sub>2</sub>), sulfur oxides (SO<sub>2</sub>, SO<sub>3</sub> etc.).  
Some metallic oxides.

**EXTINGUISHING MEDIA**  
Suitable: Use an extinguishing agent suitable for the surrounding fire.  
Special exposure hazards: No specific hazard.  
Special Protective: Fire-fighters should wear appropriate protective equipment and self-contained  
Equipment for fire-fighters breathing apparatus (SCBA) with a full face-piece operated in positive pressure  
mode.

### **SECTION 5 :: ACCIDENTAL RELEASE MEASURES**

Personal Precautions: Use chemical splash goggles or face shield and protective gloves in accordance with local regulations.

Environmental Precautions: It is the general policy to discourage direct disposal of this product, or other products like it, into public waterways in the undiluted state. Dispose of in accordance with all local and federal regulations.

Methods of Clean-Up: Ventilate area. Persons performing clean-up should wear adequate protective equipment. Contain spill and soak up excess with compatible absorbent material. Transfer to suitable containers for disposal or reclamation. Flush area with water to chemical disposal drain.

### **SECTION 6 :: HANDLING AND STORAGE**

Handling: Wash thoroughly after handling  
Storage / Packaging: Keep container tightly closed. Keep container in a cool, well-ventilated area.

### **SECTION 7 :: EXPOSURE CONTROLS / PERSONAL PROTECTION**

Engineering Measures: No special ventilation requirements. Good general ventilation should be sufficient to control airborne levels. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Personal Protection Equipment  
Respiratory System: use a properly fitted, particulate filter respirator complying with an approved standard if risk assessment indicates this is necessary, respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## BabyFoam

Recommended:	disposable particulate mask.
Skin and Body:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Hands:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. >8 hour/hours (breakthrough time): natural rubber (latex)
Eyes:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dust.
	Recommended: splash goggles, safety glasses with side-shields.

### SECTION 8 :: PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	powder
Color:	Off-white
Odor:	Mild
Boiling Point / Decomposition temperature:	204.422 deg C (400 deg F)
Solubility in Water:	Soluble in hot water. Partially soluble in cold water.
Flash Point:	>200 deg. F closed cup: >93.322 deg C (Tagliabue)
Specific gravity:	<1 (Water = 1)
Volatility:	< 2% (v/v)
Dispersibility properties:	See solubility in water
Lower Explosion Limit:	NA
Upper Explosion Limit:	NA

### SECTION 9 :: STABILITY AND REACTIVITY

Stability:	Stable
Conditions to Avoid:	None Known
Materials to Avoid:	None Known
Hazardous Decomposition Products:	None Known
Incompatibility with various substances:	reactive or incompatible with the following materials: oxidizing materials.

### SECTION 10 :: TOXICOLOGICAL INFORMATION

Specific effects:	
Carcinogenic effects:	No known significant effects or critical hazards.
Mutagenic effects:	No known significant effects or critical hazards.
Teratogenicity /: reproductive toxicity	No known significant effects or critical hazards.

## BabyFoam

Sensitization:  
Ingestion: No known significant effects or critical hazards.  
Inhalation: No known significant effects or critical hazards.  
Eyes: Slightly Irritating to the eyes.  
Skin: Slightly irritating to the skin.

### SECTION 11 :: ECOLOGICAL INFORMATION

Environmental precautions: No known significant effects or critical hazards.  
Products of degradation: These products are carbon oxides (CO, CO<sub>2</sub>) and water, sulfur oxides (SO<sub>2</sub>, SO<sub>3</sub> etc.). Some metallic oxides  
Toxicity of the products of: The product itself and its products of degradation are not toxic.  
Biodegradation

### SECTION 12 :: DISPOSAL CONSIDERATIONS

Waste disposal: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-product should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.  
The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to HANDLING AND STORAGE and EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.
